PROJEKTS

Data Science & Machine Learning 🔗

Developed and implemented ML models for regression, classification, clustering, and recommendations. Worked with algorithms like Ridge Regression, KNN, Matrix Factorization, and SVM. Optimized models using gradient-based methods and cross-validation. Gained experience in data preprocessing, exploratory data analysis (EDA), and handling structured and unstructured datasets, including NLP techniques for text classification and clustering.

START Hack 🔗

Europa's most entrepreneurial hackathon

Developed a prototype application for tracking children's academic performance using Vue.js. The project involved designing and implementing features to monitor and analyze student grades, enhancing the ability of educators and parents to track educational progress effectively.

Basic C++ Tic-Tac-Toe-Game 🔗

Developed a simple Tic-Tac-Toe game using C++. Implemented core game logic, including player input, win detection, and game state management. Gained practical experience with C++ programming and a deeper understanding of using Makefiles for project build management.

PROFESSIONAL EXPERIENCE

Data Analyst

Essity

04/2025 – Present

Munich, Germany

Performed data analysis on real-world datasets using Python, SQL, and Microsoft Excel. Focused on data preprocessing, cleaning, and transformation to ensure data quality. Created visualizations and reports to communicate insights effectively and supported decision-making processes.

Internship-Applied Machine Learning

Technical University of Munich

2024 – 2025

Munich, Germany

I gained hands-on experience with machine learning algorithms, real-world datasets, and Python. I focused on processing and analyzing data to extract insights, improve model performance, and optimize learning techniques. This experience helped me apply machine learning concepts effectively and work with data in a structured way.

Math Tutor

Freelance

2020 – 2021

Ankara, Türkiye

Provides personalized math tutoring to help understand math concepts and improve school performance, focusing on individual learning plans to develop problem-solving skills.

EDUCATION

Bsc. in Computer Science

Technical University of Munich

2022 – present

München,
Deutschland

Self-Study – German Language

C1 Level Proficiency

2020 – 2021

Ankara, Türkiye

Acquired German language skills during the COVID-19 pandemic, progressing from A1 to C1 level within one year through self-directed learning.

High School Diploma

Dr. Binnaz Ege-Dr. Rıdvan Ege High School

2016 – 2020

Ankara, Türkiye

Abitur: 1.4

SKILLS

Microsoft Excel	Python
Java	C++
SQL	Vue.js
Spring Boot	

LANGUAGES

Turkish — Native/Bilingual	English — Fluent
German — Fluent
